

ALSAFE™ SLATS

The Timber Alternative

ALSAFE SLATS

WOOD SLATS

No rusting, warping, painting or annual maintenance.

ALSAFE SECURITY PRODUCTS have taken the benefits embraced by so many satisfied customers to the next level with the introduction of **ALSAFE SLATS**, aluminium extrusions in authentic woodgrain finish or range of powder coat colours.

Equally suited as the infill component between fencing piers, privacy screens or gates.

All components have been pre-treated with chromate for the highest level of environmental protection.

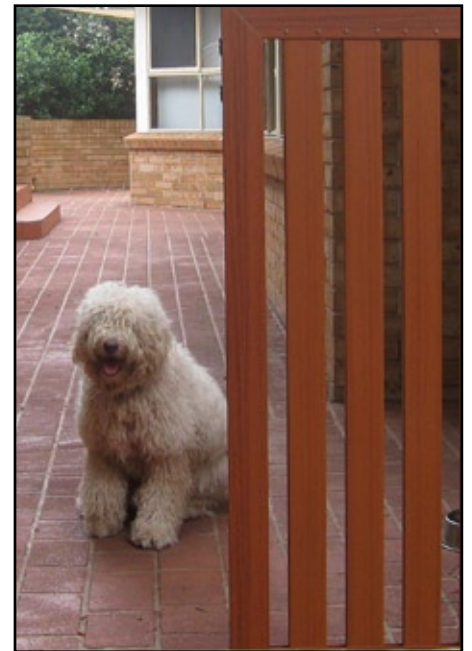

These durable & stylish finishes carry a 10 year guarantee.*

The light weight, strength and proven stability of this aluminium product will enable it to withstand the harsh and varied conditions experienced in many parts of Australia, without distortion or deterioration.

ALSAFE SLATS offer the choice of complete privacy screening with no gaps between the slats or can be custom built to the spacing between the slats that you desire.

Also available are louvred style, angled Slats to offer privacy and retain your outlook.

If you prefer the low maintenance and elegance of **ALSAFE SLATS** in aluminium with powder coat finishes but still have a passion for the natural look of timber, now you can have both.

FEATURES:

- No rusting
- No warping
- No painting or annual maintenance
- Termite proof
- Australian made for our conditions
- Light weight, high strength
